Purpose

The purpose of this policy bulletin is to clarify the requirements mandated by the Consolidated Appropriations Act, 2023 (Public Law 117-328). This law was signed on December 29, 2022, which provides funding to the Health Resources and Services Administration (HRSA) for the fiscal year ending September 30, 2023. The intent of this policy bulletin is to provide information on the funding limits for HRSA grants and cooperative agreements for FY 2023. Legislative mandates remain in effect until a new appropriation bill is passed setting a new list of requirements. The FY 2023 list of legislative mandates for HRSA award recipients is very similar to the FY 2022 list.

Frequently Asked Questions

1. Do award recipients have to adhere to all eleven of these legislative mandates?

Yes. When an organization applies, the Authorizing Official is providing assurances and agreeing to comply with any terms of an award. Based on the purpose of your program funding, not all eleven legislative mandates may directly relate to your project. However, all recipients are required to have policies and procedures in place to adhere to all legislative mandates. HRSA provides standard terms as well as additional information on the agency website and strongly encourages all recipients to frequently review these resources.

2. Since these requirements are in the annual appropriation acts, do they change every year; and will we be required to implement any changes in future years?

Yes. HRSA awards are funded based on the agency’s annual appropriation. There is no way to forecast future changes to requirements. Over the last couple of years there have been only slight changes. Recipients are required to update their policies and procedures to stay compliant with all current legislative mandates.
