

In July 2024, Amgen launched the EVENITY® 105mg, 1.17mL Glass Syringe (55513-0998-02) to replace the EVENITY® 105mg, 1.17mL Plastic Syringe (55513-0880-02) and instructed its trading partners to deplete their remaining inventory of the plastic syringe prior to the glass syringe distribution.

340B Inventory Replenishment:

Because the new NDCs are the same product (drug, dose, formulation, or volume) with the same 340B price as the corresponding NDCs, Amgen believes that a covered entity utilizing a 340B inventory replenishment model may count accumulations of the EVENITY® 105mg, 1.17mL Plastic Syringe toward replenishment of equal quantities of the corresponding EVENITY® 105mg, 1.17mL Glass Syringe (see table below) Any questions regarding this matter can be directed to 340BRelations@amgen.com.

NDC	Product	Description
