[www.drreddys.com](http://www.drreddys.com)

Dr. Reddy's Laboratories, Inc. ("Dr. Reddy's") has changed the National Drug Code ("NDC") for the product(s) listed below ("Product") effective **October 3, 2024**.

The table below reflects the Old NDC and New NDC. The New NDC is a replacement for the Old NDC.

Old Product Description	Old NDC
Fulvestrant 50mg/ml Solution for Injection	43598-262-02

  

New Product Description	New NDC
Fulvestrant 250mg/5mL (50mg/ml) RT for Injection	43598-262-23

While the New Product Description has been revised due to updated storage conditions, Dr. Reddy's confirms that the New NDC does not signify any change in product form, strength, or composition. Because the New NDC represents the same Product with the same 340B pricing as the Old NDC (to the extent 340B pricing existed for the Old NDC), Dr. Reddy's will permit eligible 340B covered entities using a compliant 340B inventory replenishment model to count accumulations of each Old NDC towards replenishment of equal quantities of each corresponding New NDC.

If you have any questions regarding this notice, please contact your key account representative.
