Dear Jami Dybik:

The Health Resources and Services Administration (HRSA) has reviewed the additional documentation provided by Sagebrush in its December 20, 2024, response to HRSA's December 20, 2024, letter.

For each Sagebrush site listed in HRSA's December 20, 2024, letter, the documentation provided by Sagebrush does not demonstrate receipt of section 318 funding for purposes of eligibility in the 340B Program. HRSA has also confirmed with Connecticut Department of Public Health and Nevada Department of Health and Human Services that these sites do not receive 318 funding. Moreover, there are a number of other deficiencies in much of the documentation, such as, not being specific to the sites being terminated and not being specific to the time periods covered. As such, HRSA's determination that each of the sites in its December 20, 2024, letter, be terminated from the 340B Program stands.

Due to Sagebrush's continued failure to comply with section 340B(a)(4)(K) of the Public Health Service Act for these sites, and to the extent that the sites have not yet been terminated by Sagebrush as outlined in HRSA's December 20, 2024, letter, HRSA will terminate the sites by close of business January 13, 2025. As stated in that letter, it is Sagebrush's responsibility to determine the full scope of non-compliance and repay affected manufacturers accordingly for the period of time that the Sagebrush sites did not receive section 318 funding.

Sincerely,

Chantelle V. Britton, M.P.A., M.S.
