

FY2024:HRSA’s Rural Health Grants

Hawaii Fact Sheet | November 2024

The Health Resources and Services Administration (HRSA) – through the Federal Office of Rural Health Policy (FORHP) – **provided approximately \$1.6 million in funding to the state of Hawaii to increase health care access, strengthen health networks, and focus on care quality improvements for Critical Access Hospitals and small rural hospitals.** FORHP also supports HRSA’s goal to achieve equity for rural Americans by funding efforts to strengthen health care delivery systems, advance maternal health care, reduce the morbidity and mortality associated with substance use disorder, and improve the financial viability of rural hospitals.

By increasing access to quality services and training a more skilled health workforce, these investments from FORHP have allowed communities in Hawaii and across the country to improve health outcomes and address health disparities.

| Program Name | Grantee Name | County | Award Amount | Congressional District |
|--|---------------------------------------|----------|--------------|------------------------|
| Medicare Rural Hospital Flexibility | Hawaii Department of Health | Honolulu | \$460,006 | HI-01 |
